We have ten planters coming from Aberdeen City Council to various sites around Cove and Altens, and we will be coming to speak to those of you who live near these sites, in the hope that you will be willing to help look after them. They will need some renovation when they arrive, and we have a team from Maersk Oil North Sea UK Ltd, in Altens, ready and waiting to do them up once they are in place. We will be approaching local businesses to sponsor these planters – the Cove Bay Hotel have already promised to support us in this way – and Mr Penny at Cove Bay Nurseries has agreed to supply the plants when we are ready for them. Mr Penny has helped the Cove in Bloom project over many years, and we are pleased we can thank him by purchasing our plants from our local nursery.

We also have a number of hanging baskets to site around Cove and Altens. If you think you can put up one of these, and look after it for us, please contact us – phone number and email are above. This is all about improving our area and we need you to be involved so think about how you could help and tell us your ideas – we want to make this happen!
