Farm News

Finally some decent dry weather has appeared just in time for lambing.

The first three breeds of sheep have begun to lamb, the Greyface Dartmoor, Norfolk horn and Kerry Hill.

Three weeks ago an Eriskay foal was born to one of our mares, Polly, mother and foal are doing well.

Last September we closed the farm for a day to allow filming to take place for a popular TV program on CBeebies called 'Something Special with presenter Justin and Mr Tumble.

The program caters for children with special needs. We could not disclose the actual program at the time due to confidentiality until it was officially broadcast which was on 7th March and again shown on the 21st March at 9.45am.

We at the farm had such a fantastic day with all the crew we do hope you with

younger children enjoyed the program as much as we did. Mr Tumble even left a picture and his autograph which is in the Educational unit as a reminder of his visit.

The programme may still be available to view at http://www.bbc.co.uk/iplayer/episode/b03xpkd9/Something_Special_Were_All_Friends_Farm/

You may have read in the paper that we have applied for planning permission for a café at the farm, so visitors can buy a hot drink and snack. The café should hopefully be up and running by the summer fingers crossed.

That's all our news for now hopefully a busy eight months ahead and we do hope the sun continues to shine.
