

# Charleston School

The final term at Charleston was busy as usual. After our very successful Exhibition and Sports Day, the Breast Cancer Strawberry Tea raised over £400.

Many achievements over the year were celebrated at our Sports Award Assembly and our end of term Leavers Assembly. We even found time to have a Low Carbon Day on the 24th June.

Ever conscious of Eco issues, a whole school assembly raised some points to show the children problems we face. They then had various activities to do in the day to give their ideas as to ways forward to approach those problems in a simple way in their school and

home lives. They even calculated their own carbon footprints and agreed one thing to do in the future to help. Responsible citizens in the making!

We are now hopefully enjoying some better weather in the holidays ready to return refreshed in August. Mrs Ross and myself return to our substantive posts as PT and DHT and we will welcome back Mrs Gray from her secondment with the Authority.
