

Nether Loirston Growers

Last year we were battling dry conditions and this year we have been struggling to work on our plots with all the rain! Still, vegetables are managing to cope with the cool temperatures and some allotmenters are bringing in their first harvest.

The weeds have flourished but we are working hard to make our allotment site a credit to our community and our inclusion in the Aberdeen in Bloom entry. We will be visited by the national judges on the 7th August.

We still have room for unwanted compost bins and we can collect locally. If you can help or need further information please contact us.
