

DOONIES CLAIK

Farm news

On the farm we have been busy with School and Nursery visits, the children were well prepared for the weather, and took great pride wearing their lovely bright coloured Wellies!

Our Indian runner ducklings are enjoying their new home in the duck pond, a bigger paddling pool to swim in. Our new lambs are happily grazing in the fields, and we are busy with the arrival of our longhorn calves.

Our pet calf is currently being bottle fed and has finally been named Magnus.

We have one special visitor to the farm Mrs Tiggywinkle, an adult Hedgehog who was discovered under some straw in our Polytunnel, we are happy to report that she has had three baby hoglets who are all doing well.

We thank you for your continued support, visiting the farm and taking the time to venture outdoors in the rain! Let's hope the sun shines soon.

Doonies Education Development Group

The Educational unit is making progress with refurbishments and the Planning group have been working behind the scenes organising dates for a grand opening. They are delighted to report that Dame Anne Begg has accepted the invitation to open the unit on the 25th of August. This is a non-profit making group. Please watch for details in the local press.

Many Congratulations to Margaret Vieira, Convener of the Development Group who was recently made a Burgess of the City of Aberdeen for her services to the Community - a well deserved recognition.
