

63rd Cove Cub Scouts support Charities

During the spring term the 63rd Cub Scouts spent time finding out about various charities at home and abroad. They then voted for the Charities they would most like to help and those were the Aberdeen Lifeboats and the Vine Trust. Many of you will be familiar with the work of the Vine Trust which provides homes and education to the street children in Peru and Tanzania, they also have medical ships Amazon 1 and 2 bringing healthcare to Peru's most marginalized people. A third boat is nearing completion and after a tour of Britain coming to Aberdeen at the end of August it will be sent to Lake Victoria in Tanzania.

At the end of March the Cubs held a Bring and Buy sale during their Cub meeting and during the term they had filled smartie tubes with coins. Altogether we were able to present cheques for £110.00 to both charities. On the 20th May we visited the Aberdeen Lifeboats and after a tour of their station and boat we presented the money.
