

Nether Loirston Growers

We've had a heatwave! Growing conditions are the exact opposite of last year's when it was so cold and wet. The allotmenters have coped and everything on the allotments is growing well. Our water team came up trumps with the extended water storage system and we had enough water to carry us over until the recent thunder pelts filled some of our empty tanks. Now we are ready for the next proper summer weather! Fingers crossed!

Strawberries have done well and now the various root crops and legumes are filling out. Cabbages are starting to hearten and we can look forward to some more tasty produce being ready very soon.

Cove in Bloom and City in Bloom judges will be having a look at our endeavours shortly. Our Annual Hoe Down, when

Allotmenters come together and work on our Community Areas, went well and this year we had a BBQ. Great community spirit and the weather, for once, was just right!

Maintenance work continues and we took advantage of the offer of road planings from the City Council Roads Dept to upgrade three of our main paths.
