

Nether Loirston Growers

It's our 5th summer already and we are experiencing mixed weather once again. This hasn't dampened our spirits though and we are now enjoying our early tatties and lots of strawberries.

We were delighted to be recognised by the production team at the Beechgrove Garden and we spent a very interesting and enjoyable and sunny day at the beginning of July when we were filmed with Jim McColl for the show being aired on 24 and 26 July. Our feature includes the rainwater harvesting system that gives us our only supply of water on site as well as Jane Clark's project of jam and chutney making for an overseas charity with

produce from our sponsored plot. Of great interest was the newly created plot for one of our less able members, allowing wheelchair access and cultivating.

We are very proud of our efforts over the years since we started in 2011 and if you would like to visit the allotments please get in touch. We are always keen to encourage new members whether experienced or novice who want to give allotmenting a go.

Wishing you all a happy and productive gardening experience
