

Nether Loirston Growers

The colder darker days have arrived!

We have taken delivery of wood chippings from the City Council for our new paths. Lots of barrow loads have been moved to be used in various parts of the site.

Thank you to Keenan's and EIS for compost to help the structure of our soil by increasing it's organic material content. The compost is the product of re-cycled green waste collected from the city's brown bins.

We will have growing space available soon, so if you would like to join the Growers please contact us.

We would like to wish everyone a great Festive Season and a happy and healthy New Year.
