

Doonies Rare Breeds Farm News

The farm is now closed for winter. Farmer Graham has already begun feeding the cows with silage, the grass has stopped growing and the animals are getting hungry.

There is as always a list of maintenance work to do around the farm which will keep us busy over the winter months.

We would like to thank our volunteers for all their hard work and support and for giving up their own time; we very much appreciate their ongoing commitment.

That's all the news for now.

May we wish you all a very
Happy Christmas and
prosperous New Year.

Graham and Debbie Lennox
