

NETHER LOIRSTON GROWERS

The Growers are looking forward to the coming growing season with anticipation. We have started to check our seeds and planning what we can produce this year.

A polytunnel is to be erected on our site to extend the growing season

for the allotmenters and to provide space for talks and hands-on workshops over the summer months.

If you no longer use your compost bin, perhaps due to the brown bin scheme, then please consider donating it to the allotments. We can uplift it from you.

We may have space for more growers this year and if you live in Cove and Altens and are interested in having an allotment, would like to come along to a workshop or can donate a compost bin, please get in touch with
