

Doonies Claik

Down on the farm we are quiet over the winter months but we had three Tamworth piglets born in December. We are looking forward to the better days and new animals for Easter.

We have now got the new picnic area fenced and it will double up for an area where we can have events. Three of the volunteers have been put through their First Aid Certificates. The Planning application for our education unit is still going through the process and the outcome is eagerly awaited so the new unit can be put in place.

We are looking forward to a great summer and schools are already booking visits starting from March. Hopefully we will see you there as well!
