

Nether Loirston Growers Association

We are now into planning for the coming growing season and really hoping that we have as good a year as we had in 2013. The weather was definitely on our side with lots of sunshine and just the right amount of rain which resulted in a bumper harvest for our vegetables and fruit.

Nothing can beat the flavour of home grown tatties, carrots, peas, beans, strawberries and rhubarb!

Most of our plots are just the right size to have a go and produce food for the average sized family and we also have some small growing areas which would be ideal for anyone wanting to give it a go.

We are entering our 4th year as a community growing project and anyone living

in the Cove and Altens community can apply for a plot with us. ***We may have some plots or small growing areas available this year*** so if you want join our happy growers or for more information, ***please get in touch with myself (tel 01224 896769) or Michele (tel 01224 890329).***

Looking forward to hearing from you.
