

Nether Loirston Growers

A new year -a new hobby?

Have you thought about having a go at allotment growing and growing your own food? Fresh lettuce and radishes for summer, strawberries, peas, juicy parsnips and Brussel Sprouts for Christmas. There's nothing like homegrown for taste!

Our plot holders get so much back from their efforts ranging from getting a bit more exercise, meeting new people and sharing information on how to grow vegetables and fruit with each other.

Our site at the back of Altens Community Centre was established and opened in 2011 and provides enough space for each plot holder to grow food for a small family. The plots are just the right size to cope with. We are an independent local group and you do not have to join the Council waiting list as our site is run for and by local people.

During 2017, we may have plots available so if you would like to give it a go and visit our site, please get in touch.
