

Loirston Community Centre

The groups are all running well and we have been able, with the support of staff, to introduce **Parent & Toddler Soft Play sessions** to the programme. Sessions began on Monday mornings 9.30am – 11.00am but due to demand an additional session has since started on a Friday. The sessions incorporate activities on the soft play equipment and music and movement to suit all ages.

The **Rising 2's and Rising 5's** groups are preparing for the holidays creating Easter crafts. Places are available at both groups after the Easter break. As this is the final term before the new intake of Primary 1 children **Rising 5's** is an ideal stepping stone to help prepare the children for school.

The **Computer Classes** are proving popular with both classes almost full. The classes will break for the holidays but resume with a new block on Tuesday 19th April. We are hoping to introduce a **Digital Photography** class to our programme. The class would be designed to ensure that you are getting the full benefit from your camera and how to use the various inbuilt modes, explaining how to download, edit, print, email and web gallery your images. Phone to register.
