

# Nether Loirston Growers

No-one can say that our weather is not “interesting”. Do we put on a fleece or not put on a fleece? That’s not just over our tender plants either, it is still a bit nippy and May is not out as this is being written!

The Growers have their new water storage system in place and a good reservoir of water has been harvested from the steading roofs. Plots have been dug over, plans have been made and plants are being brought on in the polytunnel. We have welcomed new young growers from Charleston and Loirston Schools and hope that they will enjoy working with the

soil and plants as much as the rest of us.
