

Nether Loirston Growers

At last we are getting some fine days for growing!!! We started the growing season by replacing the skin on our polytunnel and because we had a great band of helpers and good weather with no wind to hamper us on the day, this went very well with no hitches.

We are delighted that everyone is getting on so well with digging, planting and weeding and beginning to see some growth on our individual plots. However as a community gardening project, everyone helps in the upkeep of the communal areas and we will be holding our first Hoe Down and barbecue on 11 June, starting at 2pm.

It will be all hands on deck for the first part of the afternoon followed by the barbecue at about 4pm. If you are interested in having a look round the allotment site this would be a good opportunity for you as there will be members of the committee there to show you round. Please get in touch if you would like to find out more about us.
