

Cove Volunteer Squad

We are looking at the possibility of setting up a squad of volunteers to help tackle the small repair / maintenance works that crop up from time to time within the community as a result of vandalism, graffiti, wear and tear, or weather.

We all see the things that spoil the environment within which we live, those things that no-one wants to take responsibility for fixing, so they eventually get worse.

However, it doesn't have to be like that!

- ***Do you have particular skills or interests which you are not putting to use?***
- ***Are you retired, or out of work, and fed up sitting around watching Judge Judy and Jeremy Kyle?***

- ***Could you form part of a team of people within the area who are community minded and willing to put something back to 'make a difference'.***

If so, please drop an e-mail to Raymond Davidson on **raydav@bopenworld.com**, who is co-ordinating this initiative, to establish whether there are sufficient numbers of community minded people within the 8,000 or so residents of Cove and Altens who are not content to just sit back and let others do all the work.

If there is sufficient interest, a meeting will be held to advance this into a working group to put a project in place over the forthcoming weeks.

Be sure, Judge Judy will not miss you, and you will be meeting new people, getting exercise and fresh air free of charge!
