

Nether Loirston Growers

Well we are almost at the end of our sixth growing season which has been productive once again even though we had a slow start with rain most days over the early summer.

However the recent warm and sunny days have been very enjoyable on the plots, harvesting our veggies and late raspberries and we are now in filling our freezers and jars with goodies to tide us over the winter and have special home grown treats for our end of year celebrations.

It is amazing that we have for the last six years been able to provide growing spaces for over 31 families as well as contributing to the learning of our local school children with Charleston primary school progressing to a full sized plot with us for the last 2 years.

Each year we usually have some plots that become vacant for various reasons so if you think you would like to give it a go, then please get in touch with myself or Michele. We can show you round the allotment site and maybe answer any questions you may have.

We look forward to hearing from you.
