Welcome to our September input.

Since our last update our external building works have unfortunately not progressed due to issues with the contractors, however following some work from our partners in Aberdeen City Council I have been informed that the work to restore the stone work and the improve the external appearance through changing the guttering and pipe work will recommence this month.

Now that the Summer holidays have passed and most of us are back into our usual routines our meetings coming up will be focussing on fund raising and organising festivities around Halloween and Christmas.

Sadly due to unforeseen circumstances the committee is without a further two members and now more than ever we really need volunteers from the community to offer some of their valuable time to support the centre. Anyone interested in joining us to help keep the centre running should contact me at the email address listed above. Without a committee the centre will not be able to operate as it is and it is essential that we keep the community centre fruitful and viable for the community.

Despite the committee being small in number, the annexe continues to be extremely busy and continues to cater for a considerable breadth of the community, but there is always room to develop further. If anyone has ideas that they want to see start at the centre, again contact me directly at the email address stated.

With Christmas coming around the corner party bookings are busy, so if you are thinking of booking a party or a festivity please get in contact by email or through the Annexe's Facebook page.

Thank you for your continued support, whether as a customer, or as a member of the community by using the lets available at the centre.

Ash Forbes,
Loirston Annexe Chairperson
Loirston Annexe Management Committee
